The Lebanese Government strongly condemns the continued Israeli occupation and these fresh attacks and arbitrary practices inflicted on the Lebanese

population, which have left a number of casualties and have caused further serious damage to property.

Like previous attacks, this new series is in flagrant violation of the sovereignty and independence of Lebanon and constitutes a breach of the purposes and principles of the Charter of the United Nations, of international law and of basic human rights.

I should be grateful if you would have this letter circulated as a document of the General Assembly, under agenda item 37, and of the Security Council.
